Session Synopsis

This interactive presentation will provide a platform for understanding the effective implementation of practical project management techniques to manage projects. The presentation will focus on utilization of project management methodology, templates and tools for effective project management based on the presenter's own project management experience.

This workshop will be useful to anyone wanting to understand and apply creative techniques to manage their own projects and for those interested in implementing a systematic approach to implementing project management in their own organizations.

Top 5 Benefits of attending this Workshop

- Differentiate between the Art and Science of Project Management.
- Understand the roles of methodology, templates and tools in project management.
- Understand the role of technology as an enabler in using Project Management.
- Gaining an understanding of the role of Portfolio Management.
- Gaining experience from a live case study in the Oil & Gas Sector.

Free for PMI KPC Members

Non-PMI-KPC Members Fee Rs: 650/=
